ABOUT ME

I'm a naturally curious and empathetic person who loves connecting deeply with others and building positive, inclusive spaces. I value respect and open dialogue, and my commitment to veganism reflects my care for animals and the planet. I'm also a CrossFit enthusiast, believing strongly in the power of a healthy mind and body to bring out our best selves.

ACHIEVEMENTS

European Product Design Award 2024 – 1st place
SABIC Circul-A-Thon 2023 – 1st place
BASF Forward Award 2023 – Semifinalist

EXPERIENCE

Design Engineer

Spentys

Nov 2023 - present

Brussels

Developing 3D models of orthopaedic devices based on 3D scans of patients body .

Developing new orthopaedic products based on the customer needs and feedback.

Automating the digital workflows to enhance replicability, speed of execution, and quality.

Industrial Designer

Lowpoly

June 2023 - September 2023

Madrid

Integrating computational design techniques to create innovative furniture products such as chairs, lamps, and tables.

Working with a wide range of materials with a particular focus on recycled and/or food waste derived pellets.

Developing automated pathways to enhance the precision of the robotic arms (ABB and KUKA) during the printing process.

Freelance Designer

February 2023 - June 2023

Barcelona

Freelance experience in the automotive field. Projects included the realization of parametric patterns for a wide range of automotive components

EDUCATION

2023

Madrid

M.C (Degree) in Parametric Design and Digital Fabrication
Controlmad

2021 - 2022

Barcelona

M.A (Degree) in Product Design and Development
ELISAVA

2017 - 2021

Milan

B.A (Degree) in Materials and Nanotechnology Engineering
Politecnico di Milano
